Élios is an all-in-one ultra-slim EPOS system, offering a compact and stylish fanless design, ideal for all retail and hospitality environments. The compact space-saving design houses a reliable and powerful central processor unit

With its INTEL Atom architecture, its ultra-slim shape and fanless operation for tough environments, **Élios** is the perfect system for all types of retail and hospitality applications. It's sleek and simple to install and beautiful to look at!

The compact metal base gives **Élios** great stability and helps manage heat dissipation. The hard disk, located separately from the motherboard, ensures that overheating risk is reduced significantly.

**Élios** incorporates the **HSD Exclusive** (*Hardware Status Display*) management utility, a management systems' solution that provides real-time display (*in 3 languages*) of key system status data.

**HSD Exclusive** also enables a summary e-mail report for an entire batch of EPOS hardware to be sent out automatically (*for instance, to a store chain's Information Systems Manager or Hotline*) for as many units and locations as required, providing enhanced IT monitoring and security.

Additionally, the INTEL Atom processor provides excellent graphics capabilities together with low power consumption.

# ÉLIOS ultra-slim & compact all-in-one

- INTEL Atom processor (reliability & low power consumption)
- Rugged and fanless design for harsh environments
- Metal base for increased stability and heat dissipation
- Cable management hidden in the base
- Hard disk and motherboard located separately (reducing overheating risk)
- Multiple communications ports and dedicated connections
- Magnetic Swipe Reader – Dallas Key Reader – RFID Fingerprint Reader (all optional)
- HSD Exclusive solution for centralized management control of data
- Flash Drive (SSD)
- Available with or without customer display

with customer display

## MODEL

## ÉLIOS

Processor	INTEL Atom N270 1.6 GHz
Chipset	INTEL 945GSE + ICH7M
Hard disk	160 GB 2.5"
Memory	2 GB DDR2 SO DIMM
Touchscreen type	15" resistive (ELO Touch) – 60° tilting screen

## COMMUNICATIONS PORTS ( I / O )

5 x USB2.0	4 at the rear and 1 at left side of the screen
4 x serial COM RJ-45	with DB9 adaptor
1 x cashdrawer output	12 & 24 V
1 x LAN 10/100/1000	
1 x VGA (DB-15F) output	

## ENVIRONMENT

Power supply	external 65W – 19V 3.4A
Net weight	6.35 kg (without customer display)
Dimensions (L x D x H)	380 x 272 x 321 mm
OS	Windows XP, XP Pro, POS Ready, Linux

## OPTIONS

MSR	Swipe Card reader
RFID reader	(contactless reader)
Combined reader 1	Dallas Keys + MSR
Combined reader 2	biometric (fingerprints) + MSR
Flash Drive	SSD
Customer Display	optional (built-in) 2 lines x 20 characters
